

Exploring the impact of artificial intelligence on business talent development in higher education: A systematic literature review and research agenda

Appendix A Inclusion and exclusion criteria for papers

Inclusion and Exclusion Criteria for Papers

Inclusion criteria:

The research content pertains both to the development of business talents in Higher Education and to big data or AI-related fields.

The publication date must fall within the period from January 1, 2015, to December 31, 2024.

The document must be a formally published academic journal article or literature review.

The language of publication must be English.

The source must be classified as a journal publication.

Exclusion criteria:

The research content does not simultaneously cover the development of business talents in Higher Education and big data or AI-related aspects.

The publication date falls outside the range of January 1, 2015, to December 31, 2024.

The document is not a formally published academic journal article or literature review.

The publication is not written in English.

The document has been officially retracted.

The source is not a journal-type publication.

Appendix B Search strategy and process

Step 1: On January 17, 2025, search the Scopus database using key terms in the TITLE-ABS-KEY field. The search string is as follows: TITLE-ABS-KEY=(("education" OR "higher education" OR "business education" OR "management education" OR "business schools")) AND (("artificial intelligence" OR "robot*" OR "machine learning" OR "computer vision" OR "neural network" OR "deep learning" OR "natural language processing" OR "big data" OR "data science" OR "data mining")) AND (("business" OR "management" OR "market*" OR "supply chain management" OR "commerce" OR "finance" OR "accounting" OR "econom*" OR "entrepreneurship" OR "operations management" OR "human resource management" OR "strategic management" OR "decision science" OR "logistics management" OR "risk management" OR "investment management"))), By setting the time range from January 1, 2015 to December 31, 2024, 19,524 documents were obtained. Among them, 8,744 papers of the type "Article & Article Review" were selected. After excluding non-English and retracted documents, 8,276 papers remained. By choosing the source publication type as "Journal", 8,222 papers were left. Finally, by selecting the subject categories of "Business, Management and Accounting + Decision Sciences + Economics, Econometrics and Finance", 1,210 papers were left.

Step Two: On January 17, 2025, through the Web of Science Core Collection, the Social Sciences Citation Index database was selected. Key terms were used for a search in the Topic field, with the search string and time range being exactly the same as those used in the Scopus database, resulting in 1,810 documents. Then, the type was narrowed down to Article & Article Review & Early Access and the language to English, leaving 1,735 documents. After selecting the subject categories of "Management + Operations Research Management Science + Economics + Business + Business Finance + Education Educational Research + Education Scientific Disciplines + Hospitality Leisure Sport Tourism + Communication + Education Special + Information Science Library Science + Computer Sciences Interdisciplinary + Computer Science Interdisciplinary Applications + Computer Science Artificial Intelligence + Computer Science Cybernetics + Computer Science Theory Methods + Computer Science Software Engineering", 1,009 papers remained.

Appendix C Quality standards for selected papers

Quality standards for selected papers

Quality criteria:

The relevant issues regarding the development of business talents in Higher Education were clearly discussed, and the content related to big data or AI was also involved.

It fully or partially addresses the three core research questions of this study.

A complete full-text version of the article is retrievable.

The research methods and conclusions are appropriate.

Appendix D List of journals with citation frequency of 15 times or more in the references

**Appendix E List of papers on AI and business education in higher education institutions
cited 30 times or more from 2015 to 2024**

Citation	Paper Title	Authors	Affiliation (Country)	Publication Title	Methods	Module	Theme
670	Marketing analytics for data-rich environments	Wedel et al.	University of Maryland (USA)	<i>Journal of Marketing</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies
343	Artificial intelligence and sustainable development	Goralsk et al.	University of North Carolina (USA)	<i>The International Journal of Management Education</i>	Qualitative	Teaching Content and Curriculum Design	Interdisciplinary Integration
268	The digital transformation of external audit and its impact on corporate governance	Manita et al.	Université Paris-Dauphine (France)	<i>Technological Forecasting and Social Change</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
140	Embracing Digitalization: Student Learning and New Technologies	Crittenden et al.	Northeastern University (USA)	<i>Journal of Marketing Education</i>	Qualitative	Paradigm Shift in Learning	Experiential Learning
139	Toward integration of Big Data, technology and information systems competencies into the accounting curriculum	Sledgianowski et al.	Hofstra University (USA)	<i>Journal of Accounting Education</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies
137	Mediating effect of use perceptions on technology readiness and adoption of artificial intelligence in accounting	Damerji et al.	Concordia University (Canada)	<i>Accounting Education</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
137	Redefining entrepreneurship education in the age of artificial intelligence: An explorative analysis	Vecchiari ni et al.	Politecnico di Milano (Italy)	<i>The International Journal of Management Education</i>	Mixed	Business Practices and Competency Requirements	Competency Requirements in the Field of Entrepreneurship
123	The Evolution and Future of Retailing and Retailing Education	Grewal et al.	Babson College (USA)	<i>Journal of Marketing Education</i>	Qualitative	Teaching Content and Curriculum Design	Interdisciplinary Integration
112	Blockchain technology, business data analytics, and artificial intelligence: Use in the accounting profession and ideas for inclusion into the accounting curriculum	Qasim et al.	Zayed University (United Arab Emirates)	<i>Journal of Emerging Technologies in Accounting</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies
110	"Big Data": A new twist to accounting	Janvrin et al.	Iowa State University (USA)	<i>Journal of Accounting Education</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
79	Generative artificial intelligence (ChatGPT): Implications for management educators	Ratten et al.	La Trobe University (Australia)	<i>The International Journal of Management Education</i>	Qualitative	Innovation in Teaching Models	Technology Innovated Teaching Methods
74	Education and training for successful career in big data and business analytics	Dubey et al.	Montpellier Business School (France)	<i>Industrial and Commercial Training</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
72	Relevance of big data to forensic accounting practice and education	Rezaee et al.	University of Memphis (USA)	<i>Managerial Auditing Journal</i>	Quantitative	Teaching Content and Curriculum	AI-related Technologies

						Design	
61	Let's stop trying to be "sexy" – preparing managers for the (big) data-driven business era	Carillo et al.	Toulouse Business School (France)	<i>Business Process Management Journal</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
55	The Impact of Generative AI on Syllabus Design and Learning	Kim et al.	Korea University (South Korea)	<i>Journal of Marketing Education</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
55	Artificial intelligence in business curriculum: The pedagogy and learning outcomes	Xu et al.	Bentley University (USA)	<i>The International Journal of Management Education</i>	Mixed	Paradigm Shift in Learning	Active Learning
53	ChatGPT has Aced the Test of Understanding in College Economics: Now What?	Geerling et al.	University of Virginia (USA)	<i>American Economist</i>	Quantitative	Innovation in Teaching Models	Technology Innovated Teaching Methods
53	Does higher education properly prepare graduates for the growing artificial intelligence market? Gaps' identification using text mining	Benhayoun et al.	Université Paris-Saclay (France)	<i>Human Systems Management</i>	Quantitative	Teaching Content and Curriculum Design	AI-related Technologies
45	Big Data and Data Science: Opportunities and Challenges of iSchools	Song et al.	Drexel University (USA)	<i>Journal of Data and Information Science</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies
38	Team challenges: Is artificial intelligence the solution?	Webber et al.	Suffolk University (USA)	<i>Business Horizons</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
37	Artificial intelligence and business education: What should be taught	Sollosy et al.	Marshall University (USA)	<i>The International Journal of Management Education</i>	Qualitative	Teaching Content and Curriculum Design	Interdisciplinary Integration
37	Professional, Research, and Publishing Trends in Operations and Supply Chain Management	Simpson et al.	Monash University (Australia)	<i>Journal of Supply Chain Management</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
37	Application of Analytics in Supply Chain Management from Industry and Academic Perspective	Kumar, A. et al.	IMT Nagpur (India)	<i>FIIIB Business Review</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
35	Exploring University Students' Perceptions of Generative Artificial Intelligence in Education	Țală et al.	Bucharest University of Economic Studies (Romania)	<i>Amfiteatru Economic</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
35	Digital Explosion and Entrepreneurship Education: Impact on Promoting Entrepreneurial Intention for Business Students	Dabbous et al.	Saint Joseph University (Lebanon)	<i>Journal of Risk and Financial Management</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
33	The impact of artificial intelligence and Industry 4.0 on transforming accounting and auditing practices	Abdullah et al.	Prince Sattam Bin Abdulaziz University (Saudi Arabia)	<i>Journal of Open Innovation: Technology, Market, and Complexity</i>	Quantitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
31	Data science in the business environment: Insight management for an Executive MBA	Lu et al.	University of Winchester(UK)	<i>The International Journal of Management Education</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies

30	The dark side of generative artificial intelligence: A critical analysis of controversies and risks of ChatGPT	Wach et al.	Krakov University of Economics (Poland)	<i>Entrepreneurial Business and Economics Review</i>	Qualitative	Teaching Content and Curriculum Design	AI Ethics and Governance
30	Artificial Intelligence: Reshaping the Accounting Profession and the Disruption to Accounting Education	Holmes et al.	Trinity University (US A)	<i>Journal of Emerging Technologies in Accounting</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies
30	A data-driven approach to aligning academic offerings with industry needs for business and economy in Slovenia	Andonovikj et al.	University of Ljubljana (Slovenia)	<i>Journal of Decision Systems</i>	Mixed	Teaching Content and Curriculum Design	Integration of Industry, Research, and Education

Appendix F List of the papers included in the review besides highly cited papers (162 Papers)

No.	Paper Title	Authors	Publication Title	Methods	Module	Theme
1	The Future of Marketing and Marketing Education	Grewal et al.	<i>Journal of Marketing Education</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Marketing
2	Artificial intelligence and ChatGPT: Exploring Current and potential future roles in marketing education	McAlister et al.	<i>Journal of Marketing Communications</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Marketing
3	Future applications of generative large language models: A data-driven case study on ChatGPT	Chiarello et al.	<i>Technovation</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
4	Artificial intelligence in entrepreneurship education: a scoping review	Chen et al.	<i>Education and Training</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Entrepreneurship
5	Navigating the new frontier: the impact of artificial intelligence on students' entrepreneurial competencies	Somià et al.	<i>International Journal of Entrepreneurial Behaviour and Research</i>	Quantitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Entrepreneurship
6	From ideas to ventures: building entrepreneurship knowledge with LLM, prompt engineering, and conversational agents	Thanasi-Bouç et al.	<i>Education and Information Technologies</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Entrepreneurship
7	Hyperbole or reality? The effect of auditors' AI education on audit report timeliness	Liao et al.	<i>International Review of Financial Analysis</i>	Quantitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
8	The interdisciplinary curriculum alignment to enhance graduates' employability and universities' sustainability	Akhtar et al.	<i>The International Journal of Management Education</i>	Mixed	Teaching Content and Curriculum Design	Interdisciplinary Integration

9	Whether mismatch finds match in the digitalized era: A comparison of five types of graduates to align business education and banking jobs	Rahman et al.	<i>Industry and Higher Education</i>	Mixed	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
10	AI applications in business: Trends and insights using bibliometric analysis	Dissanayake et al.	<i>The International Journal of Management Education</i>	Quantitative	Teaching Content and Curriculum Design	AI-related Technologies
11	How can we improve AI competencies for tomorrow's leaders: Insights from multi-stakeholders' interaction	Gupta et al.	<i>The International Journal of Management Education</i>	Mixed	Teaching Content and Curriculum Design	Integration of Industry, Research, and Education
12	A Constructivist Approach to Integrating AI in Marketing Education: Bridging Theory and Practice	Richter et al.	<i>Journal of Marketing Education</i>	Quantitative	Paradigm Shift in Learning	Experiential Learning
13	Integrating AI-driven marketing analytics techniques into the classroom: pedagogical strategies for enhancing student engagement and future business success	Allil	<i>Journal of Marketing Analytics</i>	Quantitative	Paradigm Shift in Learning	Experiential Learning
14	Generative Artificial Intelligence in Business Higher Education: A Focus Group Study	Huo et al.	<i>Journal of Global Information Management</i>	Quantitative	Paradigm Shift in Learning	Personalized Learning
15	Tools or Fools: Are We Educating Managers or Creating Tool-Dependent Robots?	Hyde et al.	<i>Journal of Management Education</i>	Mixed	Paradigm Shift in Learning	Experiential Learning
16	Ethical use of artificial intelligence based tools in higher education: are future business leaders ready?	Mumtaz et al.	<i>Education and Information Technologies</i>	Mixed	Teaching Content and Curriculum Design	AI Ethics and Governance
17	What drives economics students to use generative artificial intelligence?	Balytska et al.	<i>Knowledge and Performance Management</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
18	Poietic symbiosis or algorithmic subjugation: generative AI technology in marketing communications education	Karimova et al.	<i>Education and Information Technologies</i>	Mixed	Paradigm Shift in Learning	Technology Acceptance and Adoption
19	Can generative AI motivate management students? The role of perceived value and information literacy	Jose et al.	<i>The International Journal of Management Education</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
20	AI-enabled correction: A professor's journey	Daly et al.	<i>Innovations in Education and Teaching International Studies in Higher Education</i>	Qualitative	Innovation in Teaching Models	Technology-Enabled Teaching Tools
21	The influence of AI text generators on critical thinking skills in UK business schools	Essien et al.	<i>Journal of Marketing Education</i>	Mixed	Innovation in Teaching Models	Technology-Enabled Teaching Tools
22	Generative AI's Impact on Critical Thinking: Revisiting Bloom's Taxonomy	Gonsalves et al.	<i>Journal of Marketing Education</i>	Mixed	Innovation in Teaching Models	Technology-Enabled Teaching Tools
23	Intelligent Retrieval and Comprehension of Entrepreneurship Education Resources Based on Semantic Summarization of Knowledge Graphs	Yu et al.	<i>IEEE Transactions on Learning Technologies</i>	Quantitative	Innovation in Teaching Models	Technology-Enabled Teaching Tools
24	Artificial Intelligence in Business Education: Benefits and Tools	Surugiu et al.	<i>Amfiteatru Economic</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
25	Exploring the Antecedents of Artificial Intelligence Products' Usage. The Case of Business	Duffett et al.	<i>Amfiteatru Economic</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption

Students

26	Quantitative Evaluation of Willingness to Use Artificial Intelligence Within Business and Economic Academic Environment	Serban et al.	<i>Amfiteatru Economic</i>	Quantitative	Innovation in Teaching Models	Technology Adoption and Role Reconfiguration
27	Implementing generative AI chatbots as a decision aid for enhanced values clarification exercises in online business ethics education	Hu	<i>Educational Technology & Society</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
28	GitHub Copilot: Introducing the artificial intelligence tool in an information systems course	Kapakos et al.	<i>Issues in Information Systems</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
29	ChatGPT: reflections from the UK higher education institutions, accountancy bodies and BIG4s	Sales de Aguiar	<i>Accounting Research Journal</i>	Qualitative	Teaching Content and Curriculum Design	AI Ethics and Governance
30	Navigating the Future: Exploring AI Adoption in Chinese Higher Education Through the Lens of Diffusion Theory	Huang et al.	<i>Interdisciplinary Journal of Information, Knowledge, and Management</i>	Quantitative	Paradigm Shift in Learning	Technology Acceptance and Adoption
31	Bridging the Gap: Applying AI and Bayesian Statistics to Traditional Educational Leadership Training	Donoso et al.	<i>European Public and Social Innovation Review</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
32	Future Business Workforce: Crafting a Generative AI-Centric Curriculum Today for Tomorrow's Business Education	Nithithanatchinnap et al.	<i>Data Base for Advances in Information Systems</i>	Qualitative	Teaching Content and Curriculum Design	AI Ethics and Governance
33	Exploring the Impact of Artificial Intelligence on Financial Accounting: Opportunities, Challenges, and Future Directions	Gatea	<i>Financial and Credit Activity: Problems of Theory and Practice</i>	Mixed	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
34	AI Integration for Communication Skills: A Conceptual Framework in Education and Business	Phan	<i>Business and Professional Communication Quarterly</i>	Qualitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
35	Accounting analytics data types and structures: an educational perspective	Askary et al.	<i>International Journal of Management and Decision Making</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Accounting and Finance
36	Generative Artificial Intelligence and the Academic Integrity of Graduation Works in Economics – Exploring Perceptions of Romanian Academia	Întorsureanu et al.	<i>Economic Computation and Economic Cybernetics Studies and Research</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
37	Enhancing academic performance of business students using generative AI: An interactive-constructive-active-passive (ICAP) self-determination perspective	Gao et al.	<i>The International Journal of Management Education</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
38	Social Media Marketing: A Commentary on Teaching and Learning in a Dynamic Field	Parker et al.	<i>Journal of Marketing Education</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Marketing
39	The (lack of) ethics at generative AI in Business Management education and research	Matos et al.	<i>Revista de Administracao Mackenzie</i>	Qualitative	Teaching Content and Curriculum Design	AI Ethics and Governance

40	The big data crossroads: Accounting education and the challenge of 21st century technology	Fogarty et al.	<i>Journal of Accounting Education</i>	Qualitative	Teaching Content and Curriculum Design	AI-related Technologies
41	ChatGPT and learning outcomes in tourism education: The role of digital literacy and individualized learning	Dalgıç et al.	<i>Journal of Hospitality, Leisure, Sport and Tourism Education</i>	Quantitative	Paradigm Shift in Learning	Experiential Learning
42	A critical review of AI in accounting education: Threat and opportunity	Ballantine et al.	<i>Critical Perspectives on Accounting</i>	Qualitative	Teaching Content and Curriculum Design	AI Ethics and Governance
43	Analytical skills for accounting students in a data-driven job market: Australian evidence	Askary et al.	<i>Accounting Research Journal</i>	Quantitative	Teaching Content and Curriculum Design	AI-related Technologies
44	Leadership training and development in the age of artificial intelligence	Sposato	<i>Development and Learning in Organizations</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Management
45	The Critique of Management: An Interview with Vincent Blok	Schomberg	<i>Philosophy of Management</i>	Qualitative	Teaching Content and Curriculum Design	AI Ethics and Governance
46	Big data meets sustainable marketing: A new integrated curriculum for hospitality education	Hornig et al.	<i>Journal of Hospitality, Leisure, Sport and Tourism Education</i>	Mixed	Paradigm Shift in Learning	Active Learning
47	Academic impressions pertaining to the “new normal” in tourism education and practice in accordance with digital technology and creativity	Girgen et al.	<i>Worldwide Hospitality and Tourism Themes</i>	Qualitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
48	The use of artificial intelligence in modern business education: The impact on students' cognitive and communication skills in the United Kingdom	Gerlich	<i>IEEE Engineering Management Review</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
49	Artificial Intelligence' s Capabilities, Limitations, and Impact on Accounting Education: Investigating ChatGPT' s Performance on Educational Accounting Cases	Cheng et al.	<i>Issues in Accounting Education</i>	Quantitative	Innovation in Teaching Models	Technology Enabled Teaching Tools
50	Competencies Needed by Business Professionals in the AI Age: Character and Communication Lead the Way	Cardon et al.	<i>Business and Professional Communication Quarterly</i>	Quantitative	Business Practices and Competency Requirements	Soft Skills Requirements
51	Is it Worth it? How Paradoxical Tensions of Identity Shape the Readiness of Management Educators to Embrace Transformative Technologies in their Teaching	Fischer et al.	<i>Journal of Management Education</i>	Qualitative	Innovation in Teaching Models	Technology Innovated Teaching Methods
52	Evolution of the use of conversational agents in business education: Past, present, and future	Bohorquez-Lopez et al.	<i>Revista de Administracao Mackenzie</i>	Mixed	Innovation in Teaching Models	Technology Enabled Teaching Tools
53	ChatGPT in marketing: innovative pathways, decision systems, and forward perspectives	Singh et al.	<i>Journal of Decision Systems</i>	Qualitative	Business Practices and Competency Requirements	Competency Requirements in the Field of Marketing
54	Artificial intelligence and management education: A conceptualization of human-machine interaction	Clegg et al.	<i>The International Journal of Management Education</i>	Qualitative	Innovation in Teaching Models	Technology Innovated Teaching Methods
55	Generative AI and Marketing Education: What the Future Holds	Guha et al.	<i>Journal of Marketing</i>	Mixed	Business Practices and	Competency Requirements in

			Education		Competency Requirements	the Field of Marketing
